

TDIPVIDB 2K VIDEO DOORBELL

2K QHD VIDEO WITH 5MP | 164° ULTRA WIDE ANGLE LENS | BUILT-IN LED

The **TDIPVIDB Doorbell** features a 5MP sensor for live video monitoring in both indoor or outdoor scenarios. With its IP65 certification, it is equipped to withstand a range of weather conditions including rain, dust and cold temperatures. The **TDIPVIDB** is capable of capturing crisp, clear images even in low-light scenarios. Plus, it includes a smart night light to help visitors find their way in the dark. Leave your worries behind about lagging video or connectivity problems. The **TDIPVIDB** features a dual-band Wi-Fi connection for reliable 24/7 streaming video at your fingertips.

2K QHD Video Quality

Features a high quality sensor for crystal clear video.

AI Human Detection

Only sends a mobile alert to your device when a human is detected, allowing users to monitor without receiving annoying false alerts.

Night Vision Mode

Supports night vision for clear-as-day clarity even in pitch dark environments.

LED Active Deterrence

Scares away unwelcome visitors with built-in LED spotlight.

IP65 Weatherproof

Provides protection against the elements such as dust and water, perfect for outdoor use.

Two-way Talk & Quick Response

Provides real-time communication from your mobile device to individuals at the camera.

Local Storage w/o Monthly Fee

Supports NVR and Micro SD card (up to 256GB) storage.

Dual-Band Wi-Fi Connection

Dual-Band 2.4GHz & 5GHz Connectivity greatly enhances the video stream experience without any streaming lag.

164° Ultra-wide View

See the full picture with the 164° ultra-wide viewing angle and 4:3 aspect ratio.
